The DP-G series are Duplo's new mid-range Duprinters, replacing the best-selling DP-L series. The DP-G series has been designed to improve usability and performance with: a new larger LCD panel, a new stepper motor paper feed system, double feed detection as standard and neater stacking on paper output.

The DP-G200 and DP-G300 are A4 document printing systems, whereas the DP-220 and DP-G320 are B4 document printing systems.

The DP-G series duplicators are equipped with new ink that has a different nozzle shape. The new ink and masters are not compatible with previous models.

#### **High quality Printing**

The DP-G series are equipped with a thermal digital master making process with a scan and print resolution of 300 x 600dpi, reproducing originals to exceptionally high standards.

The operator can scan via the flatbed scanner on the DP-G300 and DP-G320 or via the Automatic Document Feeder (ADF) on DP-G200 and DP-G220. Alternatively you can print direct from a PC, Mac or via a network with the optional USB 2.0 connectivity.

#### **Environmentally Friendly**

The DP-G series conforms to a number of environmental standards. All the compatible inks on the DP-G series are water based inks.

The DP-G series feature an energy saving mode, which not only reduces the carbon footprint of a company, but also the running costs.

The re-usable resin master eject core further improves its environmental performance.

#### **High Productivity**

The DP-G series can print up to 130 pages per minute. Master making interval time on the DP-G300 & DP-G320 is 21 seconds and 23 seconds on the DP-G200 & DP-G220

Double feed detection now comes as standard to ensure accurate printing of sheets and a new stepper motor paper feed system further helps to improve to acctivity.

Scan the document via the ADF/flabed scanner Send document via computer/ USB

Straight Paper Path = Faster Print & Fewer Jams

#### **Image Modes**

As soon as an image has been selected, the Duprinters will automatically adjust its setting to ensure the print quality is at its best.

#### **User ID Manager**

The user ID Manager is an excellent security feature and also a great way to control spending within a company.

Department	User	Password	Prints
Accounts	1000001	*****	50
Accounts	1000002	*****	100
Accounts	1000003	*****	75
Service	1000004	*****	60

Marketing	1000011	*****	50
Marketing	1000012	*****	300
Marketing	1000013	*****	1000

#### 2 in 1 mode

When the DP-G series are equipped with ADF, the user can take advantage of the 2 in 1 feature which allows you to combine 2 documents in 1.

#### **Colour Printing**

Create added value to your documents by adding a spot colour. A variety of coloured inks are available on the whole Duprinter range. A pantone colour service is also provided should a specific colour be required.

#### **Options:**

#### **Tape Cluster**

Tape cluster is an optional feature available with the DP-G series. It enables the tape to be inserted between printing jobs even during high speed printing and speedily separate the printed paper into batches without interupting the printing process.

#### **Reduction and enlargement**

Document sizes can be enlarged and reduced. Reduction: 70%, 81%, 86%, enlargement: 115%, 122%, 141%.
